## No-Caulk Roof Flashing

Galvanized Steel & Thermoplastic Roof Flashing

### Advantages

These No-Caulk Roof Flashings provide a watertight seal for vent pipes. They are available for all common pipe sizes with either a galvanized steel or thermoplastic base.

### Features

- Easy to install
- Slides over pipe for pitch to 40° - 45
- Made either of rust-proof, stamped 28 gauge galvanized steel or non-fading, non-cracking rigid black thermoplastic
- Non-fading sealing collar
- Approved for Type B installations
- Do not use paint or petroleum based products on plastic bases or rubber collar
