Horizontal Vent Termination Kits

Product: Horizontal vent kit for use in venting high efficiency fossil fuel appliances.

Purpose: Vents horizontally to pull in fresh outside air and vent exhaust to outside of building.

Features:
- Low profile
- Much less visibility than traditional vents
- Doesn’t need to be painted
- Stainless steel screws (corrosion resistant)
- UV stabilized for outdoor use in direct sunlight

General Specifications:
- Do not paint
- Gas vent - BH, Class II - 65°C max (148°F)
- Zero clearance to combustible construction is allowed
- Do not block intake and exhaust
- Intended for use with Category IV high efficiency (condensing gas) furnaces or water heaters, ULC S636 Class II
