Drain Gun SWOOSH Cartridges

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Carbon Dioxide Gas, Compressed, Cartridge
Catalog Number: GGC-12, GGC-6
Manufactured by: DiversiTech Corporation
6650 Sugarloaf Parkway
Duluth, GA, 30097
Information Phone No.: 1+678.542.3600
EMERGENCY Phone No.: 1 800.255.3924 Chem-Tel (Chemical Emergencies)

SECTION 2. HAZARDOUS IDENTIFICATION

OSHA/HCS status This material is considered “articles” by the OSHA Hazard Communication Standard (29 CFR 1910.1200) and is exempted from the OSHA/HCS labeling criteria.

DOT status This material is a container for carbon dioxide with no more than 4 fluid ounces of capacity and is considered “ORM-D” or “Consumer Commodity” by the Department of Transportation (49 CFR 172.101 and 173.306). This material is exempted from the DOT labeling criteria, except when offered for transportation or transported by air.

GHS status This material is considered “articles” by the Global Harmonized System in accordance with 29 CFR 1910.1200 and is exempted from the GHS labeling and SDS classification criteria.

Precautionary statements
General Read and follow all Product Safety Data Sheets (PSDS’S) before use. Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Use equipment rated for cylinder pressure. Do not puncture until connected to equipment prepared for use. Do not remove until contents is empty. Do not throw into fire. Use only equipment of compatible materials of construction.

Prevention Use and store outdoors or in a well ventilated place.

Response
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

Storage Protect from sunlight. Protect from sunlight when ambient temperature exceeds 52ºC/125ºF. Store in a well-ventilated place.

Disposal Dispose in accordance with all applicable regulations. Do not incinerate unless content is empty.

Hazards not otherwise classified In addition to any other important health or physical hazards, this product may displace oxygen and cause rapid suffocation. May cause frostbite.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture Substance
Chemical Name Carbon Dioxide
Synonyms Carbonic, Carbon Dioxide, Carbon Anhydride, CO₂
CAS Number 124-38-9
Content (vol%) 99.8 % or more

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

SECTION 4. FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation Remove exposed person to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular, or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be necessary to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Drain Gun SWOOSH Cartridges

SECTION 4. FIRST AID MEASURES (cont.)

**Skin Contact** Carbon dioxide is harmless at atmospheric pressure. Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**Eye Contact** Carbon dioxide is harmless at atmospheric pressure. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.

**Ingestion** Refer to the inhalation section.

4.2 Most important symptoms/effects, acute and delayed

Potential acute health effects

**Inhalation** No known significant effects or critical hazards.

**Skin Contact** No known significant effects or critical hazards.

**Eye Contact** No known significant effects or critical hazards.

**Frostbite** Try to warm up the frozen tissues and seek medical attention.

**Ingestion** Refer to the inhalation section.

4.3 Over-exposure signs/symptoms

**Inhalation** No specific data.

**Skin Contact** No specific data.

**Eye Contact** No specific data.

**Ingestion** No specific data.

4.4 Indication of immediate medical attention and special treatment needed, if necessary

**Notes to physician** Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

**Specific treatments** No specific treatment.

**Protection of first-aiders** No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

SECTION 5. FIREFIGHTING MEASURES

5.1 Extinguishing media

**Suitable extinguishing media** Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing media** No specific treatment.

**Specific hazards arising from the chemical** Contains gas under pressure. In a fire or if heated, a pressure increase will occur and the container may burst or explode.

**Hazardous thermal decomposition products** Decomposition products may include the following materials: Carbon dioxide, Carbon monoxide

**Special protective actions for fire-fighters** Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Contact supplier immediately for specialist advice. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

**Special protective equipment for fire-fighters** Fire-fighters should wear appropriate equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions

**Personal precautions, protective equipment and emergency procedures**

**For non-emergency personnel** No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Avoid breathing gas. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

**For emergency responders** If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in “For non-emergency personnel”.

**Environmental precautions** Ensure emergency procedures to deal with accidental gas releases are in place to avoid contamination of the environment. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.2 Methods and materials for containment and cleaning up

**Small spill** This material contains no more than 40 grams of carbon dioxide, in case of spill, allow carbon dioxide to vent naturally. Do not handle the cylinder without protective gloves as it may cause frostbite.

**Large spill** This material contains no more than 40 grams of carbon dioxide, in case of spill, allow carbon dioxide to vent naturally. Do not handle the cylinder without protective gloves as it may cause frostbite.
Drain Gun SWOOSH Cartridges

SECTION 7. HANDLING AND STORAGE

7.1 Precaution for safe handling

Protective measures: Put on appropriate personal protective equipment (see Section 8). Contains gas under pressure. Avoid contact with eyes, skin and clothing. Avoid breathing gas. Empty containers retain product residue and can be hazardous. Do not puncture or incinerate container. Use equipment rated for cylinder pressure. Close valve after each use and when empty. Protect cylinders from physical damage; do not drag, roll, slide, or drop. Use a suitable hand truck for cylinder movement.

Advice on general occupational hygiene: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibility: Store in accordance with local regulations. Store in a segregated and approved area. Store away from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Keep container tightly closed and sealed until ready for use. Cylinders should be stored upright, with valve protection cap in place, and firmly secured to prevent falling or being knocked over. Cylinder temperatures should not exceed 52°C (125°F).

SECTION 8. EXPOSURE CONTROLS/PERSOAL PROTECTION

Additional information about design of technical facilities: No further data; see item 7

8.1 Control parameters

This material contains no more than 40 grams of Carbon Dioxide. Although unlikely to result in serious exposures, the following Control parameters Occupational exposure limits are provided for regulatory purpose.

<table>
<thead>
<tr>
<th>Ingredient name</th>
<th>Exposure Limits</th>
</tr>
</thead>
</table>
| Carbon Dioxide  | ACGIH TLV (United States, 3/2012). Oxygen Depletion [Asphyxiant]. STEL: 54000 mg/m³ 15 minutes. STEL: 30000 ppm 15 minutes. TWA: 9000 mg/m³ 8 hours TWA: 5000 ppm 8 hours. NIOSH REL (United States, 1/2013). STEL: 54000 mg/m³ 15 minutes. STEL: 30000 ppm 15 minutes. TWA: 9000 mg/m³ 8 hours TWA: 5000 ppm 8 hours. OSHA PEL (United States, 6/2010). TWA: 9000 mg/m³ 8 hours TWA: 5000 ppm 8 hours. OSHA PEL 1989 (United States, 3/1989). STEL: 54000 mg/m³ 15 minutes. STEL: 30000 ppm 15 minutes. TWA: 9000 mg/m³ 8 hours TWA: 5000 ppm 8 hours.

Appropriate engineering controls: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Precautions for safe handling

Protective measures: Put on appropriate personal protective equipment (see Section 8). Contains gas under pressure. Avoid contact with eyes, skin and clothing. Avoid breathing gas. Empty containers retain product residue and can be hazardous.

Individual protection measure

Hygiene measure: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, using the lavatory and at the end of your shift. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/Face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Drain Gun SWOOSH Cartridges

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION (cont.)

8.2 Skin protection

Hand protection Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Body protection Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Physical state Gas at normal temperature and pressure
Color Colorless
Molecular weight 44.01 g/mol
Molecular formula C-O2
Melting/freezing point Sublimation temperature: -79ºC (-110.2ºF)
Critical temperature 30.85ºC (87.5ºF)
Odor Odorless
Odor threshold Not available
pH Not available
Flash point [Product does not sustain combustion]
 Burning time Not available
 Burning rate Not available
Evaporation rate Not available
Flammability (solid, gas) Not available
Lower and upper explosive (flammable) limits Not available
Vapor pressure 830 psig
Vapor density 1.53 (Air = 1), Liquid Density@BP: Solid Density = 97.5 lb/ft³ (1562 kg/m³)
Specific volume 8.771 ft³/lb (m³/g)
Gas density 0.114 lb/ft³ (178.6 g/m³)
Relative density Not available
Solubility Not available
Solubility in Water Not available
Partition coefficient 0.83
n-octano / water Not available
Auto-ignition temperature Not available
Decomposition temperature Not available
SADT Not available
Viscosity Not available

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity
No specific test data related to reactivity is available for this product or its ingredients.

10.2 Chemical stability
The product is stable

10.3 Possibility of hazardous reaction
Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid
No specific data.

10.5 Hazardous decomposition
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

10.6 Hazardous polymerization
Under normal conditions of storage and use, hazardous polymerization will not occur.
Drain Gun SWOOSH Cartridges

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects
Acute toxicity Not Available
Irritation / Corrosion Not available
Sensitization Not available
Mutagenicity Not available
Carcinogenicity Not available
Reproductive toxicity Not available
Teratogenicity Not available
Specific target organ toxicity (single exposure) Not available
Specific target organ toxicity (repeated exposure) Not available
Aspiration hazard Not available
Information on the likely route of exposure Not available

11.2 Potential acute health effects
Eye contact No known significant effects or critical hazards.
Inhalation No known significant effects or critical hazards.
Skin contact No known significant effects or critical hazards.
Ingestion Since this product is a gas, refer to the inhalation section.

11.3 Symptoms related to the physical, chemical, and toxicological characteristics
Eye contact No specific data.
Inhalation No specific data.
Skin contact No specific data.
Ingestion No specific data.

11.4 Delayed and immediate effects and also chronic effects from short and long term exposure
Short term exposure
Potential immediate effects Not available
Potential delayed effects Not available
Long term exposure
Potential immediate effects Not available
Potential delayed effects Not available

11.5 Potential chronic health effects — Not available
General No known significant effects or critical hazards.
Carcinogenicity No known significant effects or critical hazards.
Mutagenicity No known significant effects or critical hazards.
Teratogenicity No known significant effects or critical hazards.
Developmental effects No known significant effects or critical hazards.
Fertility effects No known significant effects or critical hazards.

11.6 Numerical measures of toxicity
Acute toxicity estimate Not available

SECTION 12. ECOLOGICAL INFORMATION

12.1 Toxicity
Toxicity Not available
Persistence and degradability Not available

Bioaccumulative potential
Product / Ingredient name Log Pow BCF Potential
Carbon Dioxide 0.83 - low

Mobility in soil

Soil/Water partition coefficient (KOC) Not available
Other adverse effects Not available
Drain Gun SWOOSH Cartridges

SECTION 13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Discharge of Carbon Dioxide
Gradually release in open air.

Disposal of Cylinders
If gas remains in cylinders, release gas with proper equipment and recycle cylinders as recyclable steel.

Verify for puncture hole.
Do not dispose or recycle without first checking that all gas has been released and there is a puncture hole on the cylinder.

SECTION 14. TRANSPORTATION INFORMATION

USA DOT
Consumer Commodity
No Hazmat Required 49 CFR 173.306 Limited Quantities of Compressed Gas

Hazard Class
ORM-D “Consumer Commodity”

Placard
Not required in accordance to 49 CFR 173.306

Special Shipping Information

SECTION 15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

The following selected regulatory requirements may apply to this product. Not all such requirements are identified. Users of this product are solely responsible for compliance with all applicable international and domestic (including but not limited to federal, state, and local) regulations.

U.S. Federal Regulations
None of this product components are listed under SARA Sections 302/304 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65), CERCLA (40 CFR 302.4), TSCA 12(b), or require an OSHA process safety plan. This material is considered “articles” by the OSHA Hazard Communication Standard (29 CFR 1910.1200) and is exempted from the OSHA/HCS labeling criteria.

This material is a container for carbon dioxide with no more than 4 fluid ounces of capacity and is considered “ORM-D” or “Consumer Commodity” by the Department of Transportation (49 CFR 173.101 and 173.306). This material is exempted from the DOT labeling criteria, except when offered for transportation or transported by air.

SARA 311/312 Hazardous Categories
Fire hazard NO
Sudden release of pressure YES
Reactive NO
Immediate (acute) health hazard NO
Delayed (chronic) health hazard NO

State Regulations
Massachusetts This material is listed
New Jersey This material is listed
Pennsylvania This material is listed
California This material is listed

Not regulated under CA Proposition 65.

SECTION 16. OTHER INFORMATION

Hazard Rating Systems
NFPA Ratings
Health = 2
Flammability = 0
Reactivity = 0
Special = SA

HMIS Ratings
Health = 1
Flammability = 0
Physical Hazard = 3
