

ClearVue

PUMP™

Training Module

What is ClearVue™

- First condensate pump without a mechanical float
- No float, No problems!
- Includes Variable Speed and Lift and
Floatless Sensor Technology
- Self-Cleaning
- Clear tank
- Push to Drain

- Allows ClearVue™ to “think” and adjust to conditions
- Not just off / on like a regular pump
- Pump starts slow, then ramps up speed and lift as needed
- Creates a super quiet pump that’s easy to live with

FLOATLESS SENSOR™

- Detects water level coming into pump
- Stainless steel sensors run length of pump
- No floats to get stuck, misaligned, or fouled

**NO FLOAT,
NO PROBLEMS**

Self-Cleaning

- ClearVue™ can sense a clog or kink and fix it
- Self-cleaning mode pulses water with pressure break up clog and restore operation
- Automatically starts if water gets too high in tank (Alarm mode)
- Push to Clean button

Additional Features

- Anti-vibration feet make ClearVue™ sturdy and quiet
- Steel hanging tabs for easy mounting
- Reversible deck
- Audible alarm alerts to trouble
- LED lights for easy viewing

How to Sell ClearVue™

Key Message Points

1. The only pump with a brain
2. Variable Speed and Lift
3. Floatless Sensor
4. Self-Cleaning
5. Clear tank

How to Sell ClearVue™

What to say about Variable Speed and Lift

- The brains inside the ClearVue pump
- Allows ClearVue to think and adapt
- Makes ClearVue quiet and reliable

How to Sell ClearVue™

**FLOATLESS
SENSOR**™

What to say about Floatless Sensor

- Allows ClearVue to work without a standard mechanical float
- Tells ClearVue water level, inflow rate and how hard to pump
- No Float, No Problem !

How to Sell ClearVue™

What to say about Self-Cleaning:

- The only pump that can fix itself
- ClearVue can sense a problem and correct it on its own.
- Saves time and money

Thanks for learning!
