

# Triple D™ Universal Coil Cleaner™

## Strategy Statement

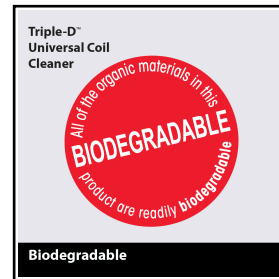

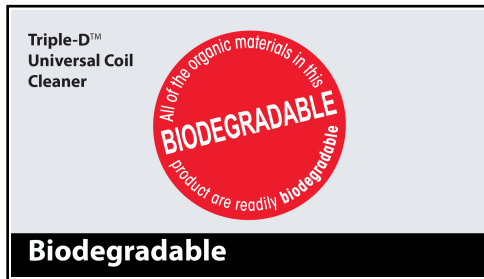

Triple-D™ is a Universal Coil Cleaner™ suitable for use on condenser and evaporator coils. It is metal safe and does not attack aluminum or copper coil components, extending equipment life and diminishing potential for refrigerant leaks. Triple-D™ is a safer, more versatile product than conventional acid or non-acid coil cleaners.

## Key Message Points

- Biodegradable
- More Economical
- Safe for Rubber Roofs
- Universal Coil Cleaner™

---

## Biodegradable

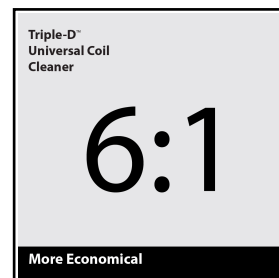

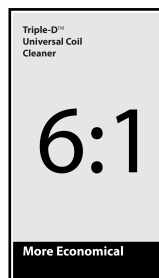

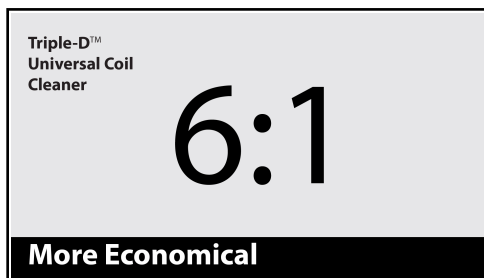

**Bullets:** Safe for environment

**Copy:** Triple-D™ is manufactured from chemicals that break down naturally in the environment. When a coil is cleaned, the rinse water is typically washed into the storm water. Triple-D™ is a non-toxic product. Many coil cleaners contain dangerous hydrofluoric acid that is extremely toxic to humans and animals.

---

## More Economical

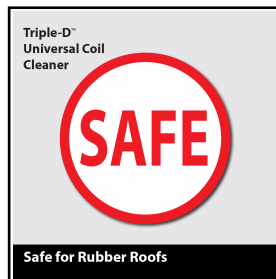

**Bullets:** Costs less to use

**Copy:** Triple D™ has a lower cost per mixed gallon against most coil cleaners. It is a 6:1 dilution ration, making 7 gallons of usable product per gallon of concentrate.

---

## Safe for Rubber Roofs

- Bullets:** Will not damage rubber roofs
- Copy:** Triple D™ does not damage engineered polymeric or rubber roofing.

---

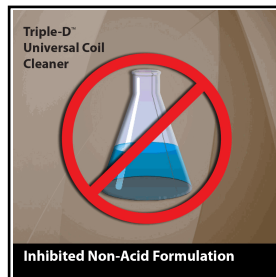

## Universal Coil Cleaner™

- Bullets:** Cleans indoor and outdoor coils
- Copy:** Triple D™ is one product for multiple applications. Use the same coil cleaner for both indoor and outdoor coils. This reduces inventory and eliminates potential product mis-application.

---

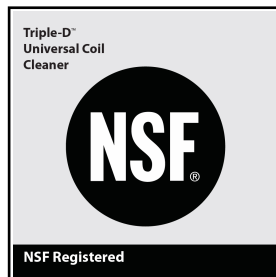

## Inhibited Non-Acid Formulation

- Bullets:** Non-acid formula
- Copy:** Triple-D™ contains a unique inhibitor that allows for a very strong non-acid formulation that effectively cleans coils.

---

## NSF Registered

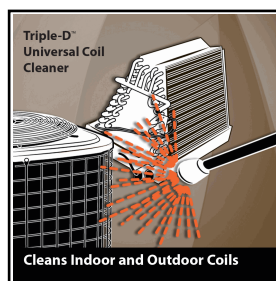

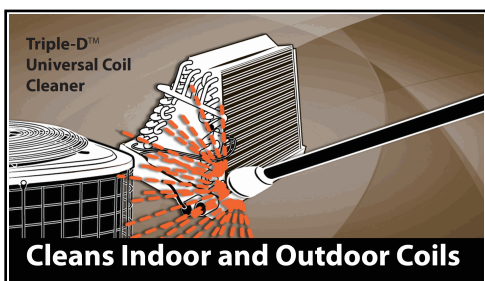

**Bullets:** NSF Registered

**Copy:** Triple D™ has been assured to be safe as a cleaner in restaurants, hospitals, government institutions, and any food preparation area. A thorough rinse will guarantee continued safe usage.

---

## Cleans Indoor and Outdoor Coils

**Bullets:** Ideal for indoor and outdoor coils

**Copy:** Use the same coil cleaner for both indoor and outdoor coils.

---

## Multiple Packages/Forms

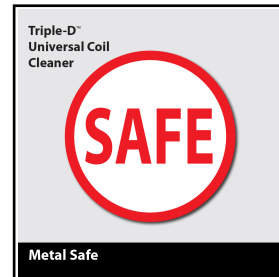

**Bullets:** Many different sizes

**Copy:** Triple D™ is available as a concentrated liquid, pre-diluted liquid, aerosol, or Granular Coil Cleaner™. It is the same product, just with different packages.

---

## Will Not Damage Equipment

**Bullets:** Safe for equipment

**Copy:** The unique inhibitor of Triple-D™ prevents the attack of aluminum coil components. Conventional foaming acid coil cleaners actually attack and chemically react with the aluminum coil components, which is exhibited by a foaming action. The aluminum dissolves, destroying the heat-transfer ability of the coil, creating the potential for refrigerant leaks. The metal safe feature of Triple-D™ prevents corrosion and is non-foaming. This makes Triple-D™ the ideal cleaner for micro channel coils and other sensitive equipment.

## Coil Cleaners

### Triple D™ Universal Coil Cleaner

Triple-D™ is the ultimate universal coil cleaner that can be used on condensers, evaporators, microchannels, roof-top units, and mini-split applications. The triple active synergistic highly effective solution is formulated to remove a board range of soils while degreasing and deodorizing. It is ideal for cleaning most metals including aluminum and copper while extending equipment life and diminishing the potential for refrigerant leaks. Using 75% less than comparable products, it reduces the amount of solution needed to clean. Triple-D is biodegradable, NSF approved and available in seven different packaging configurations.
